Business Benefits

Integrated Solution

Sugar CUBE is a one-stop solution for the sugar manufacturing industry. Sugar CUBE is an integrated solution that addresses all aspects of the sugar business, including sugar cane agronomy management and sugar cane processing through to the sale of manufactured sugar. Our solution facilitates quick decision making, optimizing inventory, ensuring transparency and standardizing various business processes and thus improving systems and standards in a sugar manufacturing company.

Business Transformation

Sugar CUBE will transform and align your business process with the best practices followed in the industry, smoothen the supply chain with all stakeholders and thus improve the overall value chain.

BEST for Your Needs

We believe in providing solutions to our customers that are the right fit. Sugar CUBE is based on an insider's view of the sugar industry coupled with our domain experience in providing various solutions to sugar manufacturing companies. The features and functionalities required for sugar manufacturing companies are defined, pre-mapped and built into the product.

Efficient Resource Utilization

Sugar CUBE streamlines business processes, improves the efficiency of work and demonstrates clear ROI. Right decision making is possible at the right time with the right information presented. Sugar CUBE eliminates labor-intensive and error prone manual processes and avoids duplication of efforts.

Cut-to-Crush Efficiency

Sugar CUBE facilitates minimization of cut-to-crush time with active integration of mobile and hand held devices for effective decision making on the sugar cane field and smoother enablement across the supply chain. Further integrated location services like GPS facilitates accuracy and scalability.

About Sathguru

Founded in 1985, Sathguru Management Consultants has two decades of experience in supplying integrated business process solutions to many leading small and medium enterprises and multi national companies. We have developed consulting services in the areas where we know we can have a positive impact on your results. A pioneer in blending consulting expertise with information technology solutions, Sathguru has developed mid-level enterprise resource planning solutions to an array of different industry verticals that include Sugar, Textile, Fast-moving Consumer Goods, Micro Credit, Agro Processing and Biotechnology industries.

Sathguru prides itself in leading its clients on a journey of growth by providing scalable solutions customized to client requirements, with the sole objective of enhancing the client's competitive advantage. Sathguru has been credited with repeat client orders through its ability to foresee future client needs at an early stage and thereby deliver solutions to clients well ahead of time.

At its state-of-the-art software development centre at Hyderabad, India, Sathguru has attained the expertise to design, develop, test and deliver solutions for both Microsoft and Oracle Technologies. We specialize in providing integrated solutions to client specific needs and the ability to build audit trails in an effective manner, with the added benefits of customization and scalability.

Sathguru's ability to implement solutions at client locations with trained manpower to handle "human change" and adaptability to new technologies has been appreciated by many.
